

New Rules for Snowball

Each Snowball will start with a £5 starter and will rise each week by 10p for each player taking part.

Each pair starts with a target percentage according to their experience; -

Regular players start on 75%.

Improvers playing together start on 65%.

2 beginners playing together start on 55%.

A beginner playing with someone who has not previously won the Snowball starts on 60%.

2 people playing together with different handicaps take the average of their handicaps.

These target percentages decrease by 1% each time the pair plays.

The Snowball continues until at least 1 pair reaches their target.

If 2 or more pairs reach their target on the same night, the prize will be divided equally between them.

Each time a player wins the Snowball their target percentage will go up by 1%
